Abstract
<p>This document is a public announcement of the evaluation results of EMIL's first FSTP call. It gives a brief overview of the evaluation and lists the successful applicants.</p>

Results of EMIL’s First Funding Call

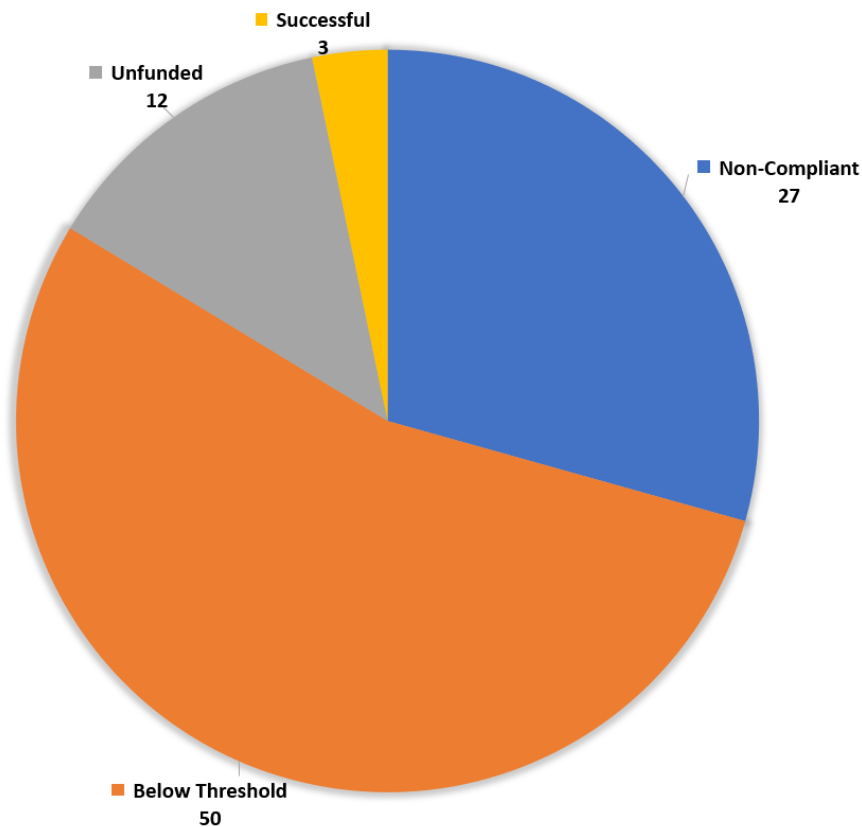

It is our pleasure to announce the successful applicants of our first FSTP funding round. We received 92 applications from 20 countries, as illustrated below.

These applications were reviewed by 52 independent experts. During a rigorous evaluation process, 27 applications were found to be non-compliant (29%), e.g. not addressing the required TRL levels. 50 applications were scored below the minimum funding threshold of 15 out of 25 points (54%). 12 applications scored above the threshold but were not among the top-ranking applications (13%).

D2.4 – Evaluated results of call 1 and public results on website

The following three applications were selected for funding (3% acceptance rate):

1. “XR-PAIN: eXtended Reality-Assisted Therapy for Chronic Pain Management” by Fundació de Recerca Clínic Barcelona - Institut d’Investigacions Biomèdiques August Pi i Sunyer (FRCB-IDIBAPS), Spain, EUR 393,797
2. “Haptics Innovation for Performing Arts (HIPeA)” by the Oulu University of Applied Sciences, Finland, EUR 338,318
3. “Project CAPARE: Cueing-Assisted Personalised Augmented-Reality Exergaming for Parkinson’s rehabilitation” by VU Foundation (VU University Amsterdam), Netherlands, EUR 499,999

Congratulations to the successful applicants of the first round! The EMIL team is looking forward to working with you. If your application was unsuccessful at this occasion, please consider applying for our second funding round.
